

The Daily Astorian.

ASTORIA, OREGON:
TUESDAY, MARCH 12, 1883

At Last.

At a meeting of the directors of the Oregon and California railroad, held at Portland on the 5th, it was ordered that the annual meeting of the stockholders of that corporation hold their annual meeting on the 10th of next month. At that meeting supplementary articles of incorporation will be submitted for consideration and adoption. These supplementary articles embrace a variety of purposes, the most important is that which proposes "to construct and equip a railroad and telegraph line with all necessary branches, from a point at or near Forest Grove, in Washington county, Oregon, to Astoria in Clatsop county, Oregon, to connect with its existing railroad, and to operate and maintain the same and carry freight and passengers thereon, and receive tolls therefor." This is plain enough and to the point. The O. & C., represents the corporation that claim what we have so long and persistently written about—The Astoria Land Grant—the grant that we have argued should be forfeited unless the corporation that claimed it gave evidence of their intention to make good their promise whereby they obtained the original concession. If what we quote above means anything it means that the company intends to build the road as soon as possible. Should that be done there would be no opposition on the part of Astorians. It would open up a magnificent country and put Clatsop county ahead a dozen years. It would bring our country a share of the immigration that will pour from the east in the next three years, and add much to our material wealth. Looking at the matter in this light we say candidly we would rather see the road built than see the grant forfeited. We are for that which is for the best interests of the county. If the company refuse to build the road yet claim the right to hold the grant we want that claim forfeited, but if they say "we will build the road" THE ASTORIAN says "welcome; build the road and develop our resources." The company in its intent exhibits shrewd commercial policy. It can make money by its Astoria road; it will be a matter of mutual benefit. Astoria is so situated that she need fear no railroad; rather look upon them as adjuncts, as feeders, as attributes of her ultimate prosperity. We are glad to see the O. & C. contemplate such action, and congratulate them on being alive to their interests.

The era of great mining activity on this coast seems at an end. We hear no more of great strikes and busy men on mountain sides. Virginia, Bodie, Eureka, and other places are becoming hamlets, and in California the agricultural products far exceed in value the output of the mines. Mining is in its nature feverish and ephemeral work. It is brilliant in its sometime result, but it is only a gamble and is not of lasting benefit. Agriculture, the products of the field, farm and stock yard afford sure, though slower means of acquiring a competence, unaccompanied by sharp turns of fortune that affect the miner.

The New Orleans Times-Democrat chivalrously admits that Mrs. Langtry is a charming person, but ventures to say that in any one of the audiences she had in the St. Charles theater there were a score of women superior to her in every attribute of beauty. "At the Carnival german on Friday night," it says, "she was outstripped by dozens of the ladies present." This startling statement recalls the reply of Dr. Franklin, when asked in a Parisian ball-room if he had ever seen anything like it before. "Not since I was weaned," responded the sage.

A RECENT edict against the leading scientists of the world charges them with atheism. This is out of place. That the order of the universe is the order of a Supreme mind working silently and closely through ages, and not spasmodically through centuries, is now as much an accepted idea of civilized man as the theory of gravitation. And this is all that Huxley, Darwin and Tyndall assert. The nearest approach that Tyndall, the greatest living scientist ever made to materialism was in his famous Belfast address of 1874, when, after a glowing peroration concerning immortality he said that these questions "would continue to be discussed by the loftiest minds, long after you and I, like streaks of morning cloud, shall have melted into the infinite azure of eternity."

THE Standard's Washington correspondent says that when the sundry civil appropriation bill was under consideration M. C. George succeeded in securing the following amendment, relating to an increase of compensation for making surveys of the public lands in Oregon and Washington: "Where, for any cause not provided by law, in Oregon or Washington Territory, the Commissioner is unable to get the necessary surveys made, at the rates now provided by law, he may allow a sum not exceeding \$12 per linear mile, for standard lines; \$10 for township lines, and \$6 for section lines."

SAYS the Post-Intelligencer: "We have framed and adopted a constitution. Let the next legislature elect two senators, and, with Mr. Brents as representative, let them proceed to Washington and ask of the next congress seats on the floors of their respective branches." Good.

FOR GRAY'S HARBOR.
The I. S. N. Co.'s Steamer GEN. MILES
Will leave Astoria for Gray's Harbor, on Friday, March 23d.

Notice.
SEALED PROPOSALS WILL BE RECEIVED at the office of the county clerk until noon of April 4th, 1883, for the burial of the dead who may have to be buried at the expense of the county.

Notice.
